mai.masud.cse@gmail.com

PROFESSIONAL SUMMARY

CSE graduate focused on AI/ML and data, with hands-on work in speech AI and Python-based automation. Built and evaluated a WavLM-based Speech Emotion Recognition system for low-resource Noakhali Bangla and developed a working web demo. Seeking entry-level opportunities in AI/ML or data-focused roles.

TECHNICAL SKILLS

AI / ML	Machine Learning, Deep Learning, WavLM, Speech Emotion Recognition, PyTorch
Programming / Data	Python, Pandas, NumPy, SQL, MySQL, Data Analysis
Tools	Git, GitHub, Microsoft Excel, Google Colab, VS Code

UNDERGRADUATE THESIS / RESEARCH PROJECT

WavLM-Based Speech Emotion Recognition for Low-Resource Noakhali Bangla

Mar 2026

Feni University

- Developed a speaker-independent Speech Emotion Recognition system using WavLM-Large for low-resource Noakhali Bangla speech.
- Built and evaluated the BNSER dataset with 2,300 audio samples from 25 native speakers across six emotion classes.
- Applied parameter-efficient fine-tuning, controlled noise augmentation, and class-weighted cross-entropy; achieved 88.70% accuracy and 0.8872 weighted F1 on the speaker-independent test set with 48% fewer trainable parameters.
- Integrated the trained model into a Gradio web demo for uploaded or recorded speech emotion prediction.

PROJECT

Automated Sales Data Cleaning & Reporting Tool

2026

Python | Pandas | Excel Automation | Pytest

- Built a Python automation tool that transforms messy sales exports into clean, analysis-ready data and generates professional Excel reports.
- Added automated validation/testing with Pytest and packaged the workflow as a reusable reporting tool.

EDUCATION

B.Sc. in Computer Science and Engineering

2022–2025

Feni University | CGPA: 3.59/4.00

Coursework: Data Structures & Algorithms, DBMS, Computer Networks, Software Engineering, Artificial Intelligence, OOP

CERTIFICATIONS

- Machine Learning Foundations: A Case Study Approach
 - Machine Learning using Python
- Getting Started with Machine Learning Algorithms
 - AI/ML Projects

LANGUAGES

Bangla — Native

English — Professional working proficiency
